- Site Surveys

ITER

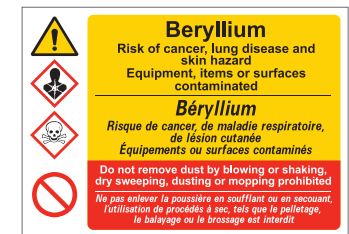

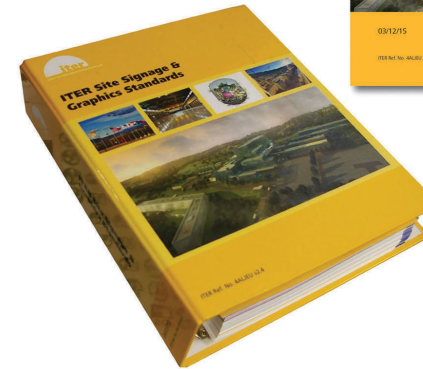

What is ITER?

ITER ("The Way" in Latin) is one of the most ambitious energy projects in the world today. In southern France, 35 nations are collaborating to build the world's largest tokamak, a magnetic fusion device that has been designed to prove the feasibility of fusion as a large-scale and carbon-free source of energy based on the same principle that powers our sun and stars.

What we did

Gave one of the largest projects in the world today a visual identity and provided clear, concise communications to educate, guide and keep safe its workforce and visitors.

\$20bn International project

Westinghouse Springfields Fuels

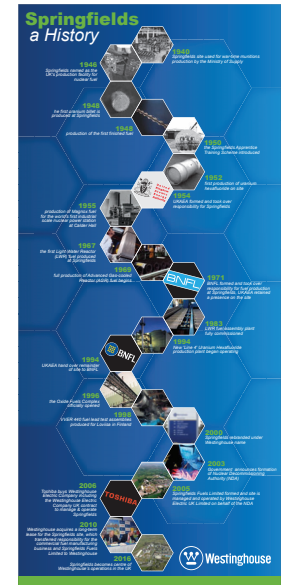

What is Springfields Fuels?

In its 79 year history, Springfields site has produced over 12 million nuclear fuel elements and can manufacture fuel for most types of nuclear reactors. Today the site has the most modern fuel manufacturing plant in the world and the fuel produced at Springfields provides around 15% of the nation's electricity.

What we did

Modernised its visual identity, created large scale exhibition and display spaces and revolutionised its signage culture with fresh, robust and compliant solutions.

12 million nuclear fuel elements & pins produced

Stratford Station

What is Stratford Station

Stratford is a major multi-level interchange station in the district of Stratford in the London Borough of Newham, east London.

Since the 2012 Olympics, the station has seen huge growth in demand at the station with almost 57 million passengers per year using Stratford.

What we did

Our task was to identify wayfinding, customer information systems and signage improvements to enhance the passenger experience and improve the flow of passengers in the station. This was done by fundamentally overhauling the station's general signage and visual assets.

Fastest-growing station in the UK 57 million passengers last year

“ I was going to send you an email today to say ‘Thank you’ for all the work you put into helping to make the Apprentice Prize Day go so smoothly. The brochures were great as were the certificates (after Stef managed to correct all my mistakes) it’s always a pleasure working with you and we really appreciated what you had done for us, so ‘thank you.’ ”

Springfields Fuels Ltd

“ We have worked with Tannahill Reay for a number of years now and we value the personal contact which secures continuity and a good knowledge of our business. We have yet to find another supplier of bespoke signage that can match not just the quality of product, but the high level of service offered by the whole team. ”

LLWR

“ Quick, precise, and understanding of our needs. A good price also helped! ”

Magnox

“ Many thanks to the TR team. Your Company provide the highest quality and most professional service in the business. ”

Aurorium

“ I have no hesitation in highly recommending Tannahill Reay. Work produced for us has included vehicle graphics, exhibition stands, pull-up banners plus an array of ad-hoc, off the wall... and usually last-minute requirements - on which they always deliver with a high standard of quality and professionalism. ”

Sellafield Limited

About us

We're a creative group of people who can also boast strong technical skills and capabilities, not to mention a thorough knowledge of current legislation and matters of compliance. We can make a positive difference to you, your brand and your business.
